

## **YET ANOTHER 'FIRST IN INDIA' BEML INTRODUCES BL120H – COMPACT LOADER CUM EXCAVATOR**

BEML LIMITED, a Public Sector Company under the Ministry of Defence and the premier manufacturer of heavy earthmoving machinery, has introduced BL120H, the Compact Loader cum Excavator, deployable in the Construction Sector. First of its kind in the Country, BL120H was introduced by Shri P. Dwarakanath, Chairman and Managing Director and Functional Directors of BEML at EXCON-2015, the 8<sup>th</sup> International Construction Equipment and Construction Technology Trade Fair being held at Bangalore, today.

BL120H is unique equipment capable of performing loading as well as excavating jobs simultaneously. Yet another 'Made-in-India' product, BL120H is the resultant of BEML R&D innovation efforts. The equipment has various special features like load sensing hydraulic system for optimum use of engine power and improved fuel efficiency.

The powershift transmission, spacious and ergonomically designed hexagonal FOPS Cabin and ergonomically positioned joystick controls are added features. Besides, orbitrol power steering system and the attachments like 6-in-1 multi purpose bucket, trench bucket, ditch cleaning bucket, taper ditching bucket, weed removal bucket, forklift, jib crane, ripper, rock breaker also make BL120H more special to the Construction Sector.

Apart from the above new equipment, BEML is displaying upgraded version of Dozer with Hydrostatic Transmission (Model BD50HST) and Powerangled Tilt Dozer with 190 HP Model (BD65PAT) at EXCON-2015.

BEML's 4 Manufacturing Complexes and 32 Regional Sales and Service Centres located across the Country supported by state-of-the-art R&D Complex, makes the company to roll out various categories of Mining & Construction equipment, thus making itself a leader in the markets of domestic and overseas, as well.
